#### ***How does it work?***

We will meet initially on Sunday afternoon at 2 PM at Our Lady of Lourdes. Our first meeting will last about one hour and you will meet your retreat director/prayer guide. The Prayer Guides are a group of spiritual directors, affiliated with St. Ignatius Retreat Center, Manhasset who have been trained in leading prayers and spiritual exercises in the tradition of St. Ignatius.

After this meeting, each retreatant will meet privately with his/her prayer guide at our parish for approximately one-half hour each day, Monday through Friday. During these meetings, the retreatant and prayer guide will reflect together and will examine different ways to pray, including meditation and praying with scripture. Each retreatant commits to set aside a half hour each day for a prayer period on a scripture passage. On Saturday morning at 9:30 AM, there will be a group closing session at Our Lady of Lourdes.

*Brochures containing applications are available at the Religious Education or Parish Office.*

**Registration deadline is Monday, January 28.** For more information, call the Religious Education Office at 661-5440 or email [Religioused@ollchurch.org](mailto:Religioused@ollchurch.org).

## Ash Wednesday

### Wednesday, February 6

Invite your friends and loved ones to come back to Church this Lent beginning on this day. Come before work, after work, during work, during the day, at night, whenever!  
There's a time and place for everyone at OLL!

- **Prayer Services** on the hour, as we pray together as a parish family:  
7 AM, 9 AM, 10 AM, 11 AM, 12 Noon, 1 PM, 2 PM, 3 PM, 4 PM, 5 PM, 6 PM, 7 PM and 9 PM.
- **Mass** will be celebrated at 8 AM and 8 PM.
- On Ash Wednesday, we invite all in our parish family to fast and pray for ourselves and for one another. Lent is such a powerful time for us to celebrate God's healing love for us – we can do that in prayer.
  - Our Church will be open all day for you to come and pray privately.
  - The Scripture readings for the day speak to us of the challenges and benefits of this season...*Joel 2:12-18*  
*2 Corinthians 5:20 – 6:2*  
*Matthew 6: 1-6, 16-18*
  - We are challenged to fast, limiting food to one full meal with minimal food at the other two meal times and abstain from meat. (This is required of all adults from ages 18-59 and only of those whose health would not be at risk by doing so.)  
We fast and abstain - not as punishment - but to focus our prayer, unite with the less fortunate, and reflect on the ways God's love can change our hearts.

## Burning of the Palms

We have been and are actively preparing for the season of Lent at OLL and we need your help!

**Ash Wednesday, February 6** begins the Lenten season and the signing of ashes is a powerful reminder to us of this time of reflection, reconciliation and renewal. The ashes come from burned palm – preferably the palm distributed last Palm Sunday.

Please bring back any palm you have at home. You can bring it to church this weekend, January 26/27 and next weekend, February 2/3 and place it in the baskets at the doors of the Church. This palm will be burned at the beginning of “The Six” on February 3.

The purpose of this action is twofold. First, it actively involves each of us in the celebration of Ash Wednesday and Lent. Second, it demonstrates the continuous work of our liturgical cycle/year. By connecting last Palm Sunday with this year’s Ash Wednesday we are reminded of the dying and rising of Christ – the Paschal Mystery - which the liturgy invites us to experience.

## Ashes

by Paul Turner

“You’ve got dirt on your forehead.”

We’re likely to hear those words from thoughtful friends who display their intimate concern as well as their religious absentmindedness when we go out in public after Mass on Ash Wednesday.

The distribution of ashes replaces the penitential rite at the beginning of Mass. Instead of merely “calling to mind our sins,” we receive a very public reminder of our sinfulness.

“Turn away from sin and be faithful to the Gospel,” we hear. Or, “Remember that you are dust and to dust you will return.”

But it wasn’t always that way. In the early church, only public sinners wore ashes. These sinners convened regularly to prepare for their reconciliation at a parish service they formed – well, what we now call “support groups.” As penitents, they used to wear ashes on their heads or in their clothes. Symbols of human mortality, ashes represented their complete dependence on the mercy of God. In the middle ages, the support groups dwindled but sinners remained strong in numbers. So Pope Urban II ordered up the first Ash Wednesday in 1091. Ashes were for everybody, and we’ve been rubbing dirt on our foreheads ever since.

Dirt is something we’re constantly washing off children and ourselves. Only in church do we deliberately put dirt on the most public part of our bodies, our foreheads. The symbol of Christ’s glory has become the symbol of our sin.

## Third Sunday in Ordinary Time

The people we consider to be the truly great ones of our lives, those who have accomplished things of which others could only dream, almost all came from very humble beginnings. Doctors, statesmen, even writers who experienced ordinary early lives went on to do extraordinary things. They were answering a call to use their talents and potential to better the lives of others. They understood their gifts, and they shared them.

In today's reading from the Gospel of Matthew, Jesus begins his earthly ministry by calling on not the wealthy or famous but simple, ordinary men within whom he saw a potential for greatness. And he makes an extraordinary request, that they leave behind their families and possessions and follow him. Are we prepared to answer such a call? Is it possible for us to put aside such things to follow a life of Christ? He recognizes our potential; we only need answer.

As parents, we are first and foremost catechists in passing on the faith to our children by living Christ-like lives. The Catechism of the Catholic Church teaches us that to catechize is to "reveal the person of Christ ? to understand the meaning of Christ's actions and words and of the signs worked by him" (CCC 426). To properly accomplish this, we must first and foremost walk with Jesus ourselves. We must put aside anything that distracts from his unending love, and answer his call.

# The Miracle of Existence

by Ron Rolheiser, OMI

While doing my doctoral thesis, I had the privilege of having as a mentor the distinguished Belgian philosopher-theologian, Jan Walgrave. One day, while discussing a point in philosophy, he asked me: "Do you ever sit on a park bench and ask yourself: Why is there something instead of nothing?" I had to admit that I didn't, at least not very often.

"Then you are not a philosopher!" he gently commented. "A true philosopher asks that question every day for it's a miracle that anything exists at all."

Having met occasionally persons like Walgrave who are true philosophers, I know better than to claim real citizenship inside that circle. True philosophers, like true mystics, true poets, and true artists, are rare. My natural temperament is a bit too pragmatic to be numbered among them. The fault in this is that, like most other non-philosophers, I generally take the world and most everything in it for granted. However, in order to stand correctly in this world, we may not take existence for granted but rather need to live with the sense that all is gift - and is a very precious and precarious gift too. It's a miracle that we are here at all!

One of the things that can help us grasp this is contemporary science, particularly what it says about the origins of our universe. Science, like theology, tells us that we weren't always here and it we shouldn't take for granted that we are here. Why not?

When one examines the current scientific hypothesis regarding the origins of our universe (the Big Bang theory) one realizes that it is a miracle, something beyond the human imagination, that there is something instead of nothing.

Science today tells us that our universe had a birthday. Roughly 15 billion years ago there was a time-zero, a time when everything in our universe as we have it now did not exist. Everything that is now in our entire universe began about 15 billion years ago with an explosion (the "big bang") from something which was probably tinier than a single atom. Moreover, for our universe, our world, and human life to have come about a mind-boggling combination of factors had to be just right. I say "mind-boggling" because it's when we examine these factors that we are left with the philosopher's wonder as to why there is something at all instead of nothing. Let me list just a few of these mind-boggling things:

18•Our Lady of Lourdes•#439

First off, as Stephen Hawking writes, "If the rate of expansion one second after the Big Bang has been smaller by one part in a hundred thousand million it would have all re-collapsed" and we would have no universe. On the other hand, if it had been greater by one part in a million, the universe would have expanded too rapidly for planets to form. That equilibrium (upon which depends the existence of our universe) is, even today, still balanced on that same razor's edge.

Second, if the nuclear force caused by this great explosion had even been slightly weaker we would have only hydrogen in the universe. If it has been even slightly stronger, all the hydrogen would be converted into helium. In either case, we would not have the present universe, the planet earth, and human life. Moreover the explosion was just strong enough so that carbon could form; yet if it had been any stronger all the carbon would have been converted into oxygen. Again, had there been a variation within a millionth of a part, we'd have no earth and no life.

Finally, in the first seconds that followed this great explosion, for every one billion antiprotons in the universe, there were one billion and one protons. The billion pairs annihilated each other to produce radiation, but one proton was left over. A greater or smaller number of survivors (or no surviving protons at all if they had been evenly matched) and, again, we would not have a universe. And, to accentuate this anomaly, normally there is a perfect symmetrical balance between particles (a billion protons for a billion antiprotons). Why the billion and one?

And then the complexity that is ultimately produced by this big bang! For example, there are a hundred trillion synapses (points at which a nerve impulses pass from one neuron to another) in a human brain and the number of possible ways of connecting them is greater than the number of atoms in the universe.

Looking at all of this, the chance coincidence of so many trillion possibilities that had to be exactly right for a universe and life to emerge, even Stephen Hawking admits, "there are theological implications."

Jan Walgrave used to define these "theological implications" this way: "The next time you are sitting on a park bench and looking at a tree or into the eyes of someone you love there should flood through you gratitude for the marvel of it all and you should ask yourself: Why is there something instead of nothing?"

# Sharing the Gospel

Jesus was the light in the darkness that was mentioned in the Scriptures. He told people to repent for the kingdom of heaven is near. Jesus was a good teacher. He explained things so that people understood about God's two greatest commandments. He told stories. Today his word is like a flashlight lighting your path to heaven. If the batteries in your flashlight need recharging, prayer will light up your flashlight again.

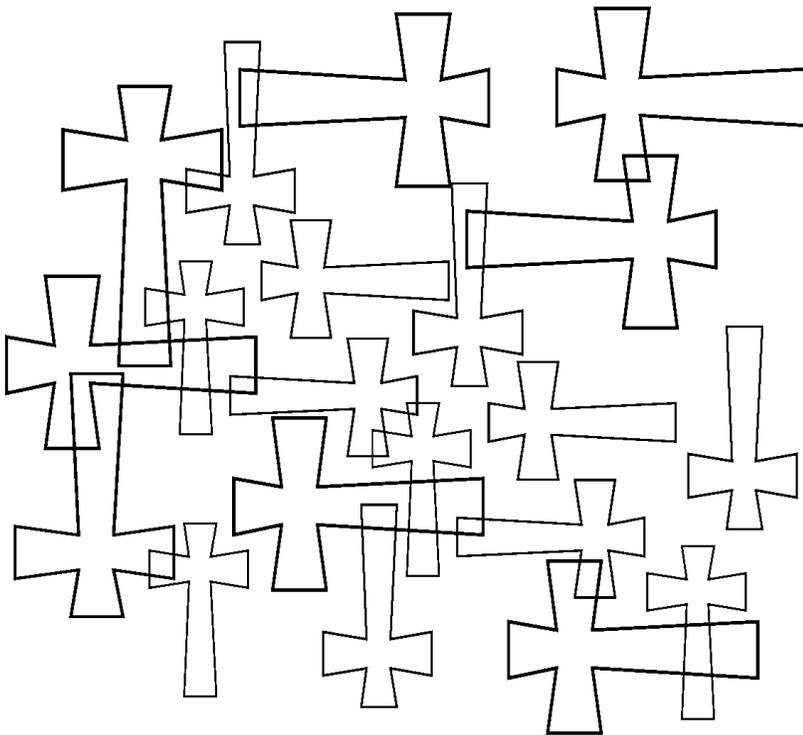

Mission for the Week

I will ask my parents how I can help them today.

## Puzzle

How many crosses can you count?

©LPI

THE ANSWER IS TWENTY CROSSES

## Prayer

Lord,  
I want to be a flashlight leading others to you.

## Something to Draw

Draw Jesus shining a flashlight on the road to heaven in front of you.
